#### THE GRAND CLIMAX REACHED AT LAST

When patience ceases to be a virtue, and when necessity becomes a law, the public must be aroused from its lethargy and spirit of indifference, and made to quiver once again with the excitement of terrible bargains in

### Staple and Fancy Dry Goods, CARPETS, BOOTS AND SHOES.

The question need not be asked, and were it not for form's sake the name need not be given, of "who is going to make this excitement," as every man, woman and child in the county of Lafayette knows there is ONLY ONE HOUSE having the vim, the heart and soul to sacrifice their property this early in the season, viz,

Who acknowledge, however, that anticipating an early fall trade, they bought unusually large. Their expectations. with those of every other merchant in Lexington, have not been realized in consequence of the unusually long continuance of summer weather, and, rather than take the risk of catching up with the already lost trade in the balance of the season, they have made up their minds that if Low Prices will do it, in Four Weeks from this date not one of the \$25-000 worth of bran new Dry Goods, &c., now on their shelves will be left to tell the tale.

Necessity does for the poor what she never does for the rich and compensates for many of the privations incident to property.

Fully realizing the hard struggle the people have to get along, have MARKED DOWN their large stock of goods so extremely cheap that none need go without the necessi-

ties of life. We say positively, and court contradiction, that we are selling our Blankets, Shawls, Jeans, Cassimeres, Boots, Shoes, Flannels, Crashes, Towels, Table Linens, Notions, &c., at prices never reached before in the annals of trade. The people are always right in their judgment, and in nothing do they exhibit this more plainly than in the patronage they bestow on us.

Call early and get posted, and see what can and will be done. This means ruination to prices in Dry Goods, Boots, Shoes and Carpets for the balance of the season, as no one will be able to contend against our prices. People throw
